

## Directions to Deer Springs Ranch

Go south out of Panguitch past the junction that goes to Cedar Breaks then about 5 miles. Turn on the road to Alton. Follow the road thru Alton, follow the big yellow arrow road signs. You will go south for several miles and then merge with another road that comes from Glendale. Hang a left there and follow it for about 10 miles it will almost go onto a paved road, turn left. If you are on the paved road you went too far south. See map. You need to go about another 10 miles to the ranch. It isn't the first ranch you see. There are signs directing you on the road to Deer Springs. When you see the ranch don't go thru the gate, go up the small hill, you will see some water tanks on your right and a landing strip on your left.

Follow signs to pit row, please obey all rules and signs. We are on private land, the land owners have worked very well with the Foxes, we would eventually like to be invited back. Please keep all camp and pit areas clean and please pack out your own garbage.

The only camping allowed will be on pit row (NO FIRES), it is actually a runway, pitting and parking will be only on one side of the runway.
